Belton Area Chamber of Commerce Plans Special Fall Events

The Belton Area Chamber of Commerce announced three special events that will be held this fall to provide opportunities for members and local businesses to connect and network. After months of limitations on public gatherings, there is a growing desire and need in our community for ways to connect in safe and appropriate ways.

“We are excited to provide these great opportunities for our members, businesses, and community to come together,” stated Randy Pittenger, Chamber President/CEO. “Following all required safety guidelines, these events will be held outdoors but still enable people to interact in some fun and productive ways. We are especially thankful for the leadership of our Board of Directors in planning activities for our community.”

The Spur Classic Sporting Clay Shootout will be held Thursday, October 22 at Weber’s Shooting Range in Troy. Keith Leija is leading a committee of the Chamber Board to plan the details for this event.

The Spur Classic Tennis Tournament will be held Saturday, October 31 at Wildflower Country Club. Kayla Potts is leading the Chamber Board committee for this event.

The Spur Classic Golf Tournament, presented by Fairway Independent Mortgage, will be held Monday, November 2 at Wildflower Country Club. Matt Wood is leading the Chamber Board committee for this event.

While these events are each separate and distinct, they will follow a similar theme, Spur Classic, playing off the theme the Chamber has utilized in the past.

Other events are still being considered and under review. As restrictions on public gatherings are relaxed, additional events are expected. “We hope to announce additional events soon that will provide opportunities for our community during the holiday season,” added Pittenger. “The goal is always to support our business community in making the Belton area a great place to live, work, shop, play, and raise a family. Events provide opportunities for our community to celebrate together, well as business exposure to potential customers.”
